25X1 Comment. The dispatching or receiving stations were only partially identified. The VP trains to Torgelow, Eggesin and toward Angermuende probably carried elements of KVP units of Armeegruppe Nord from their winter quarters at Kirchmoeser or in Saxony to the area north of Pasewalk. The same may be applied to the VP train to Potsdam which probably was not a terminal. The VP train from Gloewen to Torgau probably carried elements of the Artillerie Schule at Gloewen to the Torgau area; they either conducted firing practice with live ammunition or were transferred to the KVPD Torgau. A deserter stated that KVP units used a troop training grounds north of Torgau for artillery firing practices. Another deserter stated that artillery units of the KVP will be activated at Torgau.
